DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

The reference character "42" has been used to designate both a pouring opening and a pivot arm (see page 9, last paragraph).

Appropriate correction is required.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "42" has been used to designate both a pouring opening and a pivot arm.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-12 appear to define over the available prior art and are allowed.

4. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, the available prior art neither discloses, nor fairly suggests, a three-chamber flask with dual pivoting closures with one closure covering a liquid chamber and a second closure covering the remaining two chambers in combination with a pipe telescopically biased within a third chamber as claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

This application is in condition for allowance except for the following formal matters:

The objections to the specification and the drawings must be corrected.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
